

7.3 LIST OF DATA STORAGE AND PROCESSING CAPACITIES REQUIRED BY PARTNERS WP 2-6

Background and key outcomes/messages towards policy makers

A questionnaire sent to the partners of the mind step consortia to report on the storage and processing requirements for the project. We ask the partner to report the requirement for each economic model and/or for each data processing foreseen in the project. The result is listed in the table of the respective deliverable. In addition, partner should indicate if they need additional resources provided by WP7. This is not the case as the partners and institutes can provide all required resources by them self. No specific messages towards policy makers.
