MODELLING INDIVIDUAL DECISIONS TO SUPPORT THE EUROPEAN POLICIES RELATED TO AGRICULTURE

This is the 3rd newsletter of the MIND STEP project WHERE YOU CAN:

- Find out what MIND STEP is all about
- Read about the latest developments of the project
- Know more about networking with other EU projects
- Get information on upcoming events
- Find information about how to join us

WHAT IS MIND STEP?

MIND STEP is an EC funded 4-year Horizon 2020 research and innovation action aiming to improve exploitation of available agricultural and biophysical data and will include the individual decision making (IDM) unit in policy models.

The overall ambition of MIND STEP is to support public decision making in agricultural, rural, environmental and climate policies, taking into account the behaviour of individual decision-making units in agriculture and the rural society.

LATEST NEWS FROM MIND STEP

2nd STAKEHOLDER WORKSHOP

The 2nd Stakeholder workshop focused on the relevance of the MIND STEP indicator framework to estimate the impacts of the selected policy scenarios and the ability of the MINDSTEP toolbox to model the scenarios.

In the 2.5-hour online workshop, seven members of the core group of stakeholders provided their feedback in a lively conversation with the policy team, including the modelling experts.

MIND STEP COOPERATING WITH FELLOW PROJECTS: THE AGRIMODELS CLUSTER

DID YOU KNOW?

Alltogether three projects got funded under the Work Programme Topic RUR-04-2018-2019, contributing to Rural Renaissance by further developing analytical tools and models to support policies related to agriculture and food.

A. [2018] Developing new models supporting policies related to agriculture:

The AGRICORE project proposes a novel tool for improving the current capacity to model policies dealing with agriculture by taking advantage of the latest progress in modelling approaches and ICT.

[Read more](#)

BESTMAP develops a new modelling framework using insights from behavioural theory, linking existing economic modelling with individual-farm Agent-Based Models.

[Read more](#)

Making use of improved possibilities opened up by progress in the ICT area, MIND STEP is working to improve the exploitation of available agricultural and biophysical data and will include the individual decision making (IDM) unit in policy models.

[Visit the AGRI-MODELS CLUSTER home page](#)

As part of the Grant Agreement signed with the EC the consortia participating them agreed on forming a cluster with the other projects funded within the same topic. As a result, a Memorandum of Understanding (MoU) to establish the AGRIMODELS Cluster and detailing the coordination activities between the projects has been developed.

[Read more](#)

The coordinating teams of the three AGRIMODELS Cluster projects meet regularly to exchange their experiences regarding data management, modelling challenges, and identify possibilities for joint outreach activities. An example for the latter is the organized session:

MEET THE CLUSTER PROJECTS IN JULY 2021

The projects of the AGRIMODELS Cluster will jointly organize session „Use of Individual Decision-Making Models to Support Policies“ at the XVI EAAE Virtual Congress on the 20-23rd of July 2021.

HIGHLIGHTS FROM OUR FELLOW PROJECTS

AGRICORE

The 1st review meeting of the project was held successfully on 8 June, one big milestone of the project!

Main results of the AGRICORE Synthetic Population Generation will be presented in September at the [179th EAAE Seminar](#) organized by the group of Prof. Mattas partner to AGRICORE.

In November AGRICORE will attend the [EU Conference on modelling for policy support](#)

BESTMAP

Project coordinator Prof Guy Ziv has been invited to Environmental Land Management Modelling Expert Panel (MEP) to provide independent review and scrutiny of the UK government's Modelling Strategy and recommendations to inform modelling decisions

Read the first BESTMAP-supported environmental paper ["How to make useful-to support policy and management?"](#)

UPCOMING EVENTS

- 06/2021: [VIRTUAL XVI Congress of the Eur. Association of Agricultural Economists \(EAAE\), 2021 20-23 July](#)
- 07/2021: [VIRTUAL 7th International Degrowth / 16th International Society for Ecological Economics Joint Conference, 2021 5-8 July](#)
- 08/2021: [VIRTUAL Eurosoil 2021 Congress, 24-27 August 2021](#)
- 09/2021: [179th EAAE Seminar, 9-10 September 2021](#)
- 11/2021: [EU Conference on modelling for policy support: collaborating across disciplines to tackle key policy challenges, 22-26 November 2021](#)

JOIN US!

Your active engagement is important to ensure that MIND STEP is developing a toolbox tailored to the research and policy questions identified in collaboration with the main stakeholders.

THERE ARE MANY OPPORTUNITIES TO GET INVOLVED IN MIND STEP:

- Participate in stakeholder workshops
- Contribute to our virtual co-creation online community
- Sign up for the [MIND STEP newsletter](#).

[SUBSCRIBE TO NEWSLETTER](#)

More information will be sent in our next MIND STEP newsletter, scheduled for winter 2021.

Thank you for signing up to the [MIND STEP newsletter](#). Further information can be found on the [MIND STEP project website](#)
